Calculating Your Estimate

Estimate of your final benefit

- Actual calculation of your benefit will be based on payroll data available to SFERS after you have been paid your last pay period earnings

- Adjustment of your initial benefit amount may be possible after retirement to include earnings not included in the original calculation (e.g., retro)

- You will receive your first pension payment 30 – 45 days from the latter of your retirement date, application filing date, or your last day on payroll, or if a disability retirement, once your application is granted
Choose Your Retirement Date

Factors to consider

- Retirement Qualifications
- Maximum Service and Disability Retirement percentage: 75%
- Salary Increases
- Use of vacation or paid sick leave before retirement (counts toward credited service)

- COLAs effective July 1 – for retirement effective on or before July 1
- Personal matters

*Retirement options cannot be changed after retirement.
**The permanent reduction cost to the member's benefit pays for the benefit enhancement to the survivor.
Payment options are voluntary. This example is for illustrative purposes only and not indicative of any specific benefit payment option. The actual option calculation is based on the member’s age and the age of the qualified survivor or designated beneficiary as of the member’s effective retirement date.

Taxes

Federal and State Withholding

- Your retirement benefit is subject to federal and state income taxes
- SFERS does not withhold taxes for states other than California. If you move out of California, submit a new tax withholding form to SFERS to stop the California deduction
- It is helpful if you know your current (working) withholding amount before completing your retirement application
- You can change withholding at any time by the 10th of the month to be effective the current month
- Tax forms are available on the SFERS website
- You will receive a 1099-R Form each January showing benefits paid to you in the prior year
- Duplicate forms are available in mySFERS member portal

COLAs

Cost of Living Adjustments (Active Members)

- Active member COLAs are increases in pay negotiated between labor unions and the City
- The amount of your COLA and when you receive it is based on your job classification
- Details about your COLA are included in the MOU (Memorandum of Understanding) covering your job classification
COLAs

Cost of Living Adjustments (Retired Members)
- Retiree COLAs are not the same as active member COLAs
- A COLA is paid to help your pension income keep pace with inflation
- Two types of COLAs: Basic and Supplemental
- The Basic COLA may be payable each July 1
  - Your first day of retirement must be on or before July 1
- The Basic COLA may be 0%, ±1% or ±2% of your June 30 pension amount
- A Supplemental COLA may also be payable
  - Paid in increments of 0.5% to a maximum 1.5%
