

- Q:** On the Solicitation Table, we noticed that it states “Written Questions and Proposed Changes to City’s Contract Terms Due Date” stated as today, 9/18/2026 at 5:00pm. Also, we noticed on page 10 under the Minimum Qualification table, it states: MQ2: Proposer’s proposed changes to Attachment 1, City’s Contract Terms, by the Proposal Due date. Given Attachment 1 is a Software Development Agreement (and not the standard City’s contract terms), we request that the changes for the Software Development Agreement be aligned with the Proposal Due date, so we can align and verify our proposed scope of work to the contract terms?
- A:** Proposer’s proposed changes to Attachment 1 can be submitted by Proposal Due Date.
